PROFESSIONAL SUMMARY

Full Stack Software Engineer with experience designing, developing and deploying scalable web applications, e-commerce platforms and fintech solutions. Proficient in Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL and REST APIs. Experienced in software architecture, responsive design, API integration and performance optimization. Passionate about building secure, scalable and user-focused digital products while following software engineering best practices.

PROFESSIONAL HIGHLIGHTS

- Successfully designed, developed and deployed **4** full-stack web applications independently, from concept to production.
- Currently leading the development of **3** additional software products focused on e-commerce, fintech and SaaS solutions.
- Contributed to the successful delivery of **15+** production-ready software projects in collaboration with development teams.
- Experienced in designing scalable web applications, REST APIs, secure authentication systems and modern database architectures.
- Strong product mindset with hands-on experience transforming business requirements into reliable and user-friendly software solutions.
- Passionate about clean code, software architecture, performance optimization and continuous learning.

Core Competencies

- Full Stack Development • Software Engineering • Web Application Development
- REST API Development • E-commerce Development • Fintech Solutions
- Database Design • Responsive Web Design • Software Architecture

Technical Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, PHP, Laravel, REST APIs, JWT Authentication
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Tools:** Git, GitHub, Docker, Vercel, Cursor, VS Code, Postman

- **Software Engineering:** Responsive Design, API Integration, Database Design, Performance Optimization, SEO, Accessibility, Clean Code

Professional Experience

Founder & Full Stack Software Engineer – Yorix Digital Group (2022 – Present)

- Designed and developed scalable full-stack web applications.
- Led architecture and implementation of digital products.
- Built secure REST APIs and optimized database structures.
- Developed responsive and accessible user interfaces.
- Managed technical decisions and product evolution.

Featured Projects

YORIX MARKETPLACE

- Designed and developed a scalable multi-vendor marketplace.
- Built secure product and order management modules.
- Implemented responsive user interfaces using Next.js and Tailwind CSS.
- Optimized performance and SEO.
- Designed REST APIs for frontend/backend communication.

HODIX FINTECH PLATFORM

- Designed and developed a secure digital savings and fintech platform.
- Built community savings (tontine) management and digital wallet features.
- Implemented user authentication, notifications and group management modules.
- Developed scalable REST APIs for secure frontend and backend communication.
- **Focused** on financial inclusion, performance and user experience.

YORIX GROUP SAAS PLATFORM

- Designed and developed a SaaS platform for business management and digital services.
- Built modular dashboards for administrators, employees and business operations.
- Implemented role-based authentication and secure access control.
- Developed scalable APIs and optimized database architecture for business workflows.
- Focused on maintainability, scalability and a seamless user experience.

Education

Bachelor of Science in Computer Science
University of La Côte
Cameroon 2012

Languages

- English – Professional Working Proficiency
- French – Native / Fluent

Career Objectives

- Open to Remote Opportunities
- Open to International Relocation
- Interested in Software Engineering, Fintech and SaaS Development
- Passionate about building scalable digital products
- Committed to continuous learning and technical excellence
